Affiliate credentials & status changes

Affiliates · https://psyasia.com/kb/affiliate-credentials-status-changes/

We only work with affiliates who offer services which are **complimentary** to our own and **not competitive**.

All affiliates understand and agree that, should you add new products and services after registering as our affiliate, you **must contact us to advise** as such so that we can decide if these remain non-competitive.

Affiliates must also only undertake **ethical business and human practices, and must have a quality ethos**.
