How long does it take to finish an online course?

Online Learning Centre · https://psyasia.com/kb/how-long-does-it-take-to-finish-the-course/

Different people take differing lengths of time to complete. In the course details for each page, we list an average completion time, in addition to the enrollment length. The enrollment length is the amount of time that you will be able to access the course for with your payment. Once this expires you will need to enroll again by paying the course fee again.

For the Psychometric Assessment at Work (BPS Level 1 & 2) Course, completion of each Level with Independent Mode is within 90 days. For Supported Mode Courses, we publish a timetable with each intake. Our Extended Supported Mode takes approximately 150 days to complete, whereas our Express Supported Mode takes 6 full days (of attendance) plus an additional 30 days for completion of portfolio of work.
