Identity – Remote Working Personality Report for Manager

Downloads · https://psyasia.com/kb/remote-work-personality-report-manager/

The Remote Working Personality Report for Manager helps managers who are supporting a team of remote workers. It is based on recent studies about the effect of the coronavirus on remote work growth. It helps managers get the most out of working remotely, whilst being more aware of how certain of their personality characteristics may help or hinder their management in remote working environments.

There is a similar report for staff members not mananging others who may be working remotely.
