What if I need additional support when learning psychometrics?

BPS Level 1 & 2 Online Training · https://psyasia.com/kb/what-if-i-need-additional-support/

Firstly, try to work out the issue yourself. We suggest this because really thinking things through is the best way to learn (it works your brain cells hard and makes them more likely to exercise in that way in future!).

If you are really stuck, here are your options:

1. If you are on a Supported Mode course, you can ask questions when we next meet live, or post in the online community.

2. Attend Dr Tyler's next "Office Hours" group session (complimentary). These run approximately every 30 days, provided somebody has booked. Book your place from your Todoist course area.

3. Join a PsyGOLD Lounge session (complimentary), where students present their case studies. You are welcome to ask your own questions there too.

4. Book a PsyGOLD Consult, a one-to-one online session with Dr Tyler at a discounted rate, for 30 or 60 minutes, from your Todoist course area.

Note that questions/answers cannot pertain directly to workbook questions; they should instead be around topics of difficulty.

Please message us only inside Todoist, by adding a comment to the most relevant task. If you are studying in Independent Mode, please aim to send no more than two messages per Level.
