Certainly. We are highly experienced at customising our content or designing new courses, be that for face-to-face training or online courses. Kindly contact us and let us know what you would like us to provide. To save your time and ours, please provide as much detail as possible and ensure that the course is within our scope (organisational psychology, human resource management, clinical neuropsychology). Let us know your proposed syllabus and the people the course is aimed at. We will then be able to provide you with an estimated fee which will include a component for the design of the course and a per person component for each person who takes the course on our platform.
