How do I get the BPS or EFPA Certification?

BPS Level 1 & 2 Online Training · https://psyasia.com/kb/how-do-i-get-the-bps-or-efpa-certification/

Kindly note that following successful completion of the course(s), we will, with your permission, submit your details to the British Psychological Society for Registration on their Register of Qualifications in Test Use. The BPS will then invoice you directly for the certification and registration fee. As with all BPS Level 1& 2 Certification Courses, you will need to ensure that once you have your certificate, you fulfill the re-validation requirements every 6 years in order to continue to be certified. You may also apply for the EFPA Euro Test User Certificate once you have successfully completed ALL Levels of this course. Just complete the application form available from the BPS and submit the additional small payment.
