How much commission can I earn as a PsyAsia Affiliate?

Affiliates · https://psyasia.com/kb/how-much-commission-can-i-earn-as-a-psyasia-affiliate/

We start all affiliates on 5% commission, subject to our Affiliate Terms and Conditions for payment release and for services which attract commission.

Commission **rates increase with sales volume**. These rates are not publically available, but we will share them with you when you apply to become a PsyAsia Affiliate.

The way this works is that in **January and July of each year**, we review your sales for the previous 6 months. Your Affiliate commission for the NEXT 6 months will be commensurate with your sales performance during the previous 6 month period. Our Affiliates Commission Level Document lists average monthly sales over the 6 month review period. If you join us mid-cycle, your review will be pro-rated so that we still have an average monthly sales volume to use in the assessment of commission for the next cycle. Minimum commission will never be less than 5%.

To keep our system lean, thank you for understanding that from time-to-time we may remove Affiliates who have had no sales for a substantial period of time (i.e., at least one year).
