What do I need for Online Neuropsychological Screening?

Patient FAQs · https://psyasia.com/kb/what-do-i-need-for-online-neuropsychological-screening/

You will still need reading glasses and should upload your imaging and other medical records mentioned above to our secure cloud server BEFORE your assessment. In order to undertake the online assessment, you will need:

> A quiet environment (no children or construction noise)

> A fast, reliable computer

> Fast, reliable internet

> A webcam

> A helper (such as your partner or good friend) who will assist but ONLY when asked to do so by the neuropsychologist

> We usually test the setup with you the day prior to assessment
