What is included in the payment for online courses?

Online Learning Centre · https://psyasia.com/kb/what-is-included-in-the-payment-for-online-courses/

You will have access to all of the materials (usually a number of presentations with narration by one of our psychologists, in addition to quizzes, links, interactive learning games and tools and a final, end of course assessment. If you enroll in a paid non-BPS course, within 7 days of the expiry of your enrollment and provided you have passed the final assessment, you will receive a soft-copy (pdf) certificate of completion signed by the course director (Psychologist). Please ensure that you have given us correct details for your name and email address. We will use the details provided at registration.

Free courses do not attract free certification, but you may pay a fee for soft- and hard-copy certificates. Please check current pricing with our team.

All certificates must be applied for within 7 days of expiry of course enrollment and are only issued to those who pass the final assessment. Hard-copy certificates can be sent to anywhere in the world and are sent by registered airmail delivery so will take between approximately 5-15 days to arrive depending where you are.

We do not provide certificates for our Psychometric Assessment at Work Course / BPS Level 1 & 2 Qualification. This is because all successful students are referred to the British Psychological Society as competent in the course units and the BPS will deal with the certification process thereafter.
