What is the registration deadline for the Psychometric Assessment at Work Course?

Psychometric Assessment at Work Course · https://psyasia.com/kb/what-is-the-registration-deadline-for-the-psychometric-assessment-at-work-course/

PsyAsia closes registration once the course is full. Given that we take a maximum of 12 delegates on this course and that we are Asia's leader in psychometric training, this course tends to fill between 6-8 weeks before it goes ahead. We therefore advise clients to register as early as they can as we cannot add more delegates once we reach our maximum. Delegates are not considered as "confirmed" on the course until full payment has been received, so it is important to take the time your organisation takes to pay into account when deciding upon when you sign up!
