# Will PsyAsia be adding more online courses?

Online Learning Centre · https://psyasia.com/kb/will-psyasia-be-adding-more-online-courses/

Over time we do plan to add more online training courses in HRM, Business Psychology and Clinical Neuropsychology. However, the speed at which we do this depends on our other commitments, such as consulting assignments, face-to-face-training, and patient referrals in our clinical neuropsychology practice. If there is a course that you would like to see us prioritise, do feel free to let us know. Where we have greatest interest is where we are more likely to focus and expedite.
